SUBJECT INDEX

Acetylcholinesterase, in inner ear after EDTA decalcification 931
Acid phosphatase, see *Phosphatases*
Acylation
  of hydroxyl and amino groups 821
  of phenols 522
Acyl naphthylamides, enzymes hydrolizing mono- and dihalogen derivatives 674
Adenosine triphosphatase, see *Phosphatases*
Adrenal
  acid and alkaline phosphatase in migratory starling 772
  metachromasia of chromaffin 852
Adrenaline, noradrenaline
  microscopic identification of, in storage cells 890
  noradrenaline with electron microscope 197
Alcian blue, see *Dyes*
Alkaline phosphatase, see *Phosphatases*
Alkylation, effect of methyl iodide on tissues 504
Amines, tissue
  catecholamines
    formaldehyde vapor-induced fluorescence 487
    in fresh frozen sections 48
  fluorescence methods of demonstration of mono- 582
  formaldehyde condensation method for monamines 929
Amino acids
  constitution of chromosomes 266
  MSH in hypophysis 45
Aminopeptidase, see *Arylamidases*
Amylases, diastases, contaminants in 919
Amyloid, binding of cotton dyes with 900
Announcements 56, 228, 310, 402, 796, 868, 935
Argentaffin granules in toad kidney tubules 337
Arylamidases
  electrophoresis
    of isozymes of 869
    of wheat germ naphthylamidase 424
Arylesterases 744
Autoradiography
  applications to electron microscopy 115
  of hypophysis, with $Na_2S^{35}O_4$ 215
  new emulsion for EM work 438
  radioiodine in mast cells 856
Bone
  decalcified, dehydrogenases in 485
  dehydrogenases in developing 210
  lactic dehydrogenase in neonatal 481
Books Received 22, 310, 934
Book Reviews
  Brieger: *Structure and Ultrastructure of Microorganisms. Introduction to Comparative Substructural Anatomy of Cellular Organization* 50
  Cruickshank, Dodds and Gardner: *Human Histology* 934
  Roberts and Caserio: *Basic Principles of Organic Chemistry* 795
  Smith: *Mechanisms of Virus Infection* 222
  Spannhof: *Ein Führung in die Praxis der Histochemie* 716
Brain, EM of cholinesterases in 696
Calcergy, role of mast cell in 563
Calcium
  ions, for isolation of DNA 442
  recognition of Ca oxalate 333
Carbohydrates, in pancreas and salivary glands in cystic fibrosis 512
Carbonyl groups, blockade with phenylhydrazine 392
Carcinoma
  gastric tetracycline fluorescence 842
  prostate, acid phosphatase in 288
Catecholamines, see *Amines, tissue*
Cheeses, histochemistry applied to 482
Cholinesterases
  "direct coloring" thiocholine 219
  EM of, in brain 696
Chromosomes, amino acid constitution of 266
Corticosteroids in brown fat 646
Cystic fibrosis, carbohydrates in pancreas and salivary glands 512
Cytophotometry
  of nucleic acids with methylene blue 451
  photographic, with dual microscope 600
Decalcification of inner ear with EDTA 931
Dehydrogenases
  analysis, in muscular tissue 145
  dihydrolipoic, step in forming acyl-coenzyme A 404
  effect of menadione and phenazine methosulfate on 797
  20 α-hydroxysteroid, in rat ovaries 670
  in decalcified bone and teeth 485
  in developing bone 210
  in invertebrate muscle 183
  in rabbit lens epithelium 420
  in skeletal muscle fibers 847
  in synaptic region of spinal cord 188
  in testis, rat 587
  in vertebrate muscle 171
  lactic
    in neonatal bone 481
    isozymes in skeletal muscle 608, 687
    with "incubation mixture film" 858
  steroid 3 β-ol, substrate specificity in ovary and testis 880
Desoxyribonucleic acid
  in liver nuclei, isolated with Ca^{++} 442

RNA, DNA in skin and papillomas 429
silver stain for 875
Diastases, see *Amylases*
Disaccharides, electrophoresis of, from *Neurospora* 448
Dyes
acridine orange, acid mucopolysaccharides 164
alcian blue-alcian yellow for MPS 44
cotton dye binding with amyloid 900
effect of acylation on anionic cationic dyes 821
low pH alcian blue staining of sulfate groups 309
Editorial 403
Electron microscopy
acid phosphatase, small intestine 229
ATPase in endoplasmic reticulum 40
aldehyde fixation for morphological and enzyme studies with 57
applications of autoradiography to 115
autoradiography with new emulsion 438
cytochemistry of melansomes and mitochondria 784
errors in electron-histochemistry 713
glucose-6-phosphatase in pancreatic β-cells 792
identification of adrenaline and noradrenaline 890
immunochemical staining for 131
localization of phosphatase 72
of cholinesterases in brain 696
of glycogen 104
of HeLa cell cultures exposed to spindle inhibitors 704
of noradrenaline 197
selective staining of nucleic acids 96
Symposium: *Applications of Cytochemistry to* 57–136
with fluorescent microscopy 216
Electrophoresis
of esterases in rat ganglia 570
of isozymes
of arylamidases 869
of wheat germ naphthylamidase 424
zymograms of neural acid phosphatases 42
Embryonic tissue, UDP glucose-glycogen synthetase in 275
Enzyme systems
preservation in salivary glands after chloral hydrate fixation 647
quantitative characterization of 315
Enzymorphology
aldehyde fixation for electron microscopy 57
comparative, of estrogens 908
stereospecific inhibitor of alkaline phosphatase in intestine 252
Epididymis, holocrine cells in 628
Esterases
arylesterases 744
comparison with pancreatic-like lipase 364
desmo- and lyo- in ganglia, electrophoresis 570
fatty acid, specificity of 700
in motor end-plate 853
Estrogens, comparative enzymorphology of 908
Eye
dehydrogenases in rabbit lens epithelium 420
monoamine oxidase in 281
Fat, brown, corticosteroids in 646
Feulgen reactions with model systems 752, 758
Fixation
aldehyde, for electron microscopic studies 57
chloral hydrate, preservation of enzymes in salivary gland 647
Fluorescence
after aldehyde fixation 737
demonstration of monoamines 582
direct fluorochroming of Rickettsiae 194
effect of H^+ ion concentration on labeled antibodies 271
fluorescent microscopy with electron microscopy 216
hypophyseal hormones, incorporation by kidney of 621
immunochemical staining for electron microscopy 131
of catecholamines, induced by formaldehyde vapor 487
tetracycline in gastric carcinoma 842
visualization of acid mucopolysaccharides with acridine orange 164
water soluble blood group O (H) antigen in tissue sections 591
Formaldehyde
condensation method for tissue monoamines 929
effect on rheumatoid factor and tissue antigens 737
Freezing
and thawing, effect on various enzymes 498
tissue, ultrarapid 777
Gangliosides in bovine submaxillary gland 791
Glucose-6-phosphatase, see *Phosphatases*
β-Glucuronidase
criteria for evaluation of 239
demonstration with naphthol AS-BI and hexazonium pararosanilin 293
in rat tissues, with naphthol AS-BI and hexazonium paraosanilin 659
in skeletal muscle, with post coupling techniques 306
synthesis of naphthol AS-BI β-D-glucosiduronic acid 298
Glutaraldehyde effect on rheumatoid factor and tissue antigens 737
Glycogen
effect of muscle atrophy on 721
electron microscopy of 104
Golgi apparatus

neuronal, in neonatal rats 483
thiamine pyro- and nucleoside phosphatase in 729
Heart, adenosine triphosphatase in myocardium 740
Hela cells, EM of cultures exposed to spindle inhibitors 704
Hematopoietic cells, acid phosphatase in 805
Histochemical Titles from Current Literature 51, 223, 395, 553, 717, 860
Hypophysis
fluorescent hormones, incorporation by the kidney 621
inhibition of acid phosphatase by valine^3-oxytocin 855
localization of MSH amino acids in 45
$Na_2S^{35}O_4$ autoradiography 215
Intestine
acid phosphatase, electron microscopy 229
stereospecific inhibitor of alkaline phosphatase 252
Iron
combined microincineration-Prussian blue for demonstration of 153
sulfide in pigments 715
Irradiation, lysozyme activity in normal mice and chimeras 384
Kidney
argentaffin granules in toad tubules 337
fluorescent hypophyseal hormones incorporation by 621
Lipase
in muscle 768
pancreatic-like, comparison with esterase 364
Lipids
in avian nervous tissues 812
in pineal organ cultures 615
methods for myelin in birds 712
Nile blue, phospholipids, observations 42
Lysozyme distribution in normal and irradiated mice 384
Mast cells
radioiodine in 856
resistant sudanophilia 530
role in calcergy 563
Melanosomes, electron microscopic cytochemistry of 784
Menadione effect on various dehydrogenase systems 797
Metachromasia
of adrenal chromaffin 852
retention by new mounting medium 486
Microincineration combined with Prussian blue, for iron demonstration 153
Mitochondria
aggregates in muscle disease 46
effect of freezing, thawing on enzymes of 498
electron microscopic cytochemistry of 784
Model systems
Feulgen reactions with 752, 758
Schiff reactions with 748
synthesis and properties of 533
Monoamine oxidase
in pineal organ cultures 615
in rabbit eye 281
Monoamines, see *Amines, tissue*
Mucins, new tissue culture line 137
Mucopolysaccharides
alcian blue-alcian yellow 44
identification of scialic acids 306
in *Paracoccidioides brasiliensis* 413
low pH alcian blue staining of sulfate groups 309
reactions of sulfated to tests 327
visualization with acridine orange 164
water soluble, localization of 217
Muscle
analysis of dehydrogenases in 145
dehydrogenases in vertebrate 171
effect of atrophy on phosphorylase and glycogen 721
esterases in motor end-plate 853
β-glucuronidase in 306
heterogeneity of spindle fibers 308
lactic dehydrogenase, isozymes in 608, 687
lipase in 768
localization of dehydrogenases in 847
mitochondrial aggregates in diseased 46
Myelin, lipid methods for, in birds 712
Nervous tissue
dehydrogenases in synaptic region of spinal cord 188
electrophoresis of esterases in ganglia 570
lipids, avian 812
localization of ground substance in parrots 712
Noradrenaline, see *Adrenaline*
Nuclei
enzymes of, effect of freezing and thawing 498
isolation by Triton X-100 359
Nucleic acids
binding of, to tissue sections after removal of tissue nucleic acids 640
cytophotometry of 451
selective electron staining of, 96
Nucleoside phosphatase, see *Phosphatases*
Ovary
20 α-hydroxysteroid dehydrogenase in, 670
steroid 3 β-ol dehydrogenase in 880
Oxidative enzymes, see *Dehydrogenases*
Pancreas
ATPase in isolated islets, 491
carbohydrates in cystic fibrosis 512
glucose-6-phosphatase in β-cells 792
Paracoccidioides brasiliensis, cytochemistry of polysaccharides 413
Periodic acid-Schiff effect of acylation on 821

Peroxidases
factor affecting benzidine reaction 462
for study of phagosomes 470
horseradish, factors affecting state of 470
in tissue sections 538
Phenazine methosulfate effects
in histochemistry 928
on various dehydrogenase systems 797
Phosphatases
acid
in carcinoma of prostate 288
in hematopoietic cells in health and disease 805
inhibition in hypophysis by valine^3-oxytocin 855
in small intestine with electron microscope 229
in starling adrenal 772
adenosine tri-
demonstration of sodium-activated 654
electron microscopy, in endoplasmic reticulum 40
in isolated pancreatic islets 491
in myocardium 740
alkaline
in starling adrenal 772
in testicular nephridia of Indian leech 311
triphosphatases by chelate removal method 341
with stereospecific inhibitor in intestine 252
glucose-6-, in pancreatic β-cells 792
nucleoside, in Golgi apparatus 729
pyro-, in Golgi apparatus 729
ultrastructural localization 72
Phosphorylase, effect of muscle atrophy on 721
Pineal organ, monamine oxidase and lipids in cultures of 615
Pigments, presence of iron sulfide in 715
Proceedings, *1963 Histochemical Society Meeting* 1–39
Prostate, carcinoma, acid phosphatase in 288
Protein demonstration with tetanous chloride and dinitrofluorobenzene 325
Pyrophosphatase, see *Phosphatases*
"Reticulin", original definition of 552
Rickettsiae, direct fluorochroming of 194
Salivary glands
carbohydrates in cystic fibrosis 512
ganglioside, bovine 791
preservation of enzymes in, with chloral hydrate fixation 647
Schiff reaction
mechanism with model systems 752, 758
properties of model systems using 533
Silver stain for DNA 875
Skin, RNA, DNA in 429
Sulfhydryls
demonstrated with an azomercurial reagent 156
demonstration with nitro-BT 261
Symposium, *1963 Histochemical Society Meeting* 57–136
Testis
alkaline phosphatase in nephridia of Indian leech 311
dehydrogenases in 587
steroid 3 β-ol dehydrogenase in 880
Tetrazolium
demonstration of —SH, S—S with 261
reduction systems, effect of menadione and PMS on 797
Trypsin and trypsin-like enzymes, new substrates for 545
Uridine diphosphate glucose-glycogen synthetase
in embryonic tissue 275
in uterus 393
Zymograms, see *Electrophoresis*
